Research Projects

SCUDO – Principal Investigator (April 2026 – Present)

- Individual research project "Strumenti di policy per il Contrasto alla violenza politica e la tUtela della Democrazia lOcale (SCUDO)": the first impact evaluation of the Italian "Fondo per la legalità e la tutela degli amministratori locali vittime di atti intimidatori", the national fund for municipalities whose local administrators have been targeted by threats and intimidation.
- Building an original municipality–month panel database (about 7,900 Italian municipalities, 2015–2025) integrating Ministry of the Interior allocation data, coded municipal council resolutions on the use of the Fund, intimidation episodes (Avviso Pubblico, ACLED) and socio-economic controls (ISTAT, OpenBilanci).
- Estimating the causal effect of the Fund with a generalised *difference-in-differences* design and robust estimators for staggered treatment adoption, with a focus on Sardinia and its pre-existing regional legislation (L.R. 21/1998).

PRIN PNRR 2022 – SAFER Project (March 2024 – February 2026)

- Coordinated the "SAFER" research and thesis laboratory in the collection, classification and validation of mayoral ordinances (2018–2024).
- Processed and prepared the data for integration into the project database and for subsequent econometric analyses.
- Designed and implemented a *two-way fixed effects* regression model for impact evaluation.
- Presented the project's research lines and findings at the final conference (Sassari, 9 February 2026).

CAPSULE (November 2023 – February 2024)

- Designed the survey and questionnaire and supervised the entire administration process in Italy and Spain through a specialised company, ensuring data collection from a statistically representative sample.
- Conducted the quantitative analysis of the collected data, interpreted the results and drafted the final report to support research activities and project decisions.

Internal Fund Security – INVERT Project (June 2023 – February 2024)

- Organised and coordinated the project kick-off meeting with the consortium partners.
- Managed administrative responsibilities, including consortium communication and funding coordination.
- Drafted and finalised the project deliverables in line with reporting requirements.

AML Data Sharing: Indagine sulla condivisione dati a fini antiriciclaggio (March 2023 – May 2023)

- Developed and administered a questionnaire involving more than 35 entities subject to AML obligations in Italy.
- Drafted the final report summarising the main findings and recommendations.
- Presented the research findings at a public event at Università Cattolica del Sacro Cuore.
